
SGT220 : Simulation: Orthopedic, Cardiothoracic, Vascular and Neurosurgery

This course will continue the surgical simulation while building team skills and experience. The students will be assigned increasingly complex surgical procedures in orthopedic, cardiothoracic, vascular, and neurosurgery and will be required to perform the pre-operative, intra-operative, and post-operative patient care of all sterile and non-sterile team members. A comprehensive skills assessment will be performed on students throughout this course to evaluate the student's ability to provide safe and effective patient care prior to placement in the clinical setting.

Credits	4
Clock Hours	60
Lab Hours	40
Lecture Hours	20
Prerequisites	SGT115
