MAS130 : Clinical Specialties

This course is designed to provide students with the skills and knowledge needed to perform clinical diagnostic testing and treatments. Specimen collect techniques, assistive devices, TB testing, respiratory tests and EKGs will be reviewed. Students will learn how to assist with specialty exams, including ophthalmic, audiometric, pediatric, prenatal, and neurological exams. The medical assistant's role in treatments will also be discussed. An emphasis on working with special populations, providing patient education, and documenting will be provided.
