
PNR133 : Intravenous Therapy

This course provides a comprehensive understanding of intravenous therapy, focusing on its legal aspects, clinical application, and practical skills. Students will learn about the legal implications and state regulations of IV therapy, apply relevant anatomical and physiological knowledge, and master various IV techniques. The program covers peripheral IV therapy, central venous access management, and the administration of specialty infusions and blood products. Emphasis is placed on ensuring safe, effective patient care across the lifespan.
