
EST125 : Data, Voice, and Video Cabling

In this course, students develop skills in cable preparation, handling, installation, termination, and testing. Students will gain an understanding of cabling by following a logical flow from background information on communications systems and media to more detailed information on each media type, including copper, wireless, and fiber. Students will also gain an understanding of the most recent cabling standards.

Credits	4
Clock Hours	60
Lab Hours	40
Lecture Hours	20
Prerequisites	ELC110
